

Die Iovis 14. Sept. 1643.

**W**hereas the Lords in Parliament finde that many private businesses depend in this house, and conceive that many more may come in, which will occasion the repaire and attendance of divers of his Majesties Subjects upon their Lordships. It is thought fit and so ordered by the Lords in Parliament, in regard of many publike businesses of great importance remaining in the Parliament, which much concerne the Safety and Weale of this Kingdome; That all private Businesses shall be deferred and put off, untill the twelfth of November next: whereof all Parties are to take notice, to prevent the Charge and Trouble which otherwise they may put themselves unto.

**O**rdred by the Lords in Parliament that this bee forthwith Printed and Published.
